

# EQ Investors | Vision Sustainable MPS

*Invest in companies driving positive social and environmental outcomes*

A dynamic range of portfolios that use a multi-lens sustainability framework.

For investors who want to achieve long-term capital growth and prioritise sustainability outcomes. The EQ Investors-Vision sustainable strategy revolves around three key pillars that achieve positive sustainability outcomes: Impact Solutions, ESG Leaders & Climate Focus.

### Impact Solutions

We select specialist impact fund managers that invest in companies whose core products & services contribute towards the UN Development Goals.

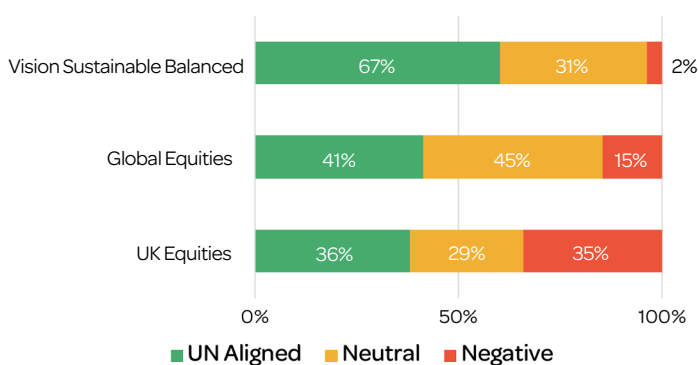

### ESG Leaders

By focusing on ESG Leaders, these funds invest in companies that are best managing environmental, social and governance risks (ESG).

### Climate Focus

These funds invest in companies that show climate change leadership. This includes climate solutions, low carbon leaders and those on a science-based pathway to transition.

## Portfolios aligned to the UN Goals

Past performance is not a guide to future performance. The value of investments and the income derived from them can go down as well as up, so you could get back less than you originally invested.
