EQ Investors Sustainable World Adventurous Plus	8
EQ Investors Sustainable World All Equity	9

Assessment

The Defaqto methodology involves using both quantitative and qualitative inputs to risk rate a portfolio:

Input 1 - Forecast the portfolio's future volatility

Input 2 - Discussion with the portfolio manager

Since our profiles are overlapping and not contiguous, we have some discretion as to whether a portfolio is rated in the upper or the lower profile.

Our assessment has been considered by our Investment Committee, and has taken into account some of EQ Investors's suggestions when arriving at our Risk Ratings.

Investment Committee summary

Stochastic (future) volatility

Our analysis has been based on holdings data provided by EQ Investors.

EQ Investors Sustainable World Defensive

Risk Rated on 09 September 2025

Mandate

The Sustainable World portfolios are managed to achieve long-term capital growth by investing in active & passive funds aligned with one or more of EQ's three sustainable pillars; Impact Leaders Core products & services contributing towards the UN Sustainable Development Goals, ESG Leaders Best at managing environmental, social and governance (ESG) risks & Climate Focus Show leadership addressing climate change. Engagement supports companies on this path. This Defensive portfolio is diversified across a mix of equities, fixed income, infrastructure and cash.

Investment Committee Notes

We used portfolio holdings supplied by EQ Investors to calculate all stochastic measures. Through discussion with EQ Investors in which the Defaqto methodology and their approach were considered, both Defaqto and EQ Investors believe that this portfolio is most appropriately risk rated as a 3.
