EQ Investors Future Leaders Adventurous Plus	8
EQ Investors Future Leaders All Equity	9

Assessment

The Defaqto methodology involves using both quantitative and qualitative inputs to risk rate a portfolio:

Input 1 - Forecast the portfolio's future volatility

Input 2 - Discussion with the portfolio manager

Since our profiles are overlapping and not contiguous, we have some discretion as to whether a portfolio is rated in the upper or the lower profile.

Our assessment has been considered by our Investment Committee, and has taken into account some of EQ Investors Future Leaders's suggestions when arriving at our Risk Ratings.

Investment Committee summary

Stochastic (future) volatility

Our analysis has been based on holdings data provided by EQ Investors Future Leaders.

EQ Investors Future Leaders Defensive

Risk Rated on 16 January 2026

Mandate

The portfolio maintains a bias towards lower volatility investments with equity holdings limited to 40%. It focuses on capital protection with a moderate participation in equity market growth, and aims to reduce investment risk by diversifying across regions and asset classes.

Investment Committee Notes

We used portfolio holdings supplied by EQ Investors Future Leaders to calculate all stochastic measures. Through discussion with EQ Investors Future Leaders in which the Defaqto methodology and their approach were considered, both Defaqto and EQ Investors Future Leaders believe that this portfolio is most appropriately risk rated as a 2.
